Nota metodològica

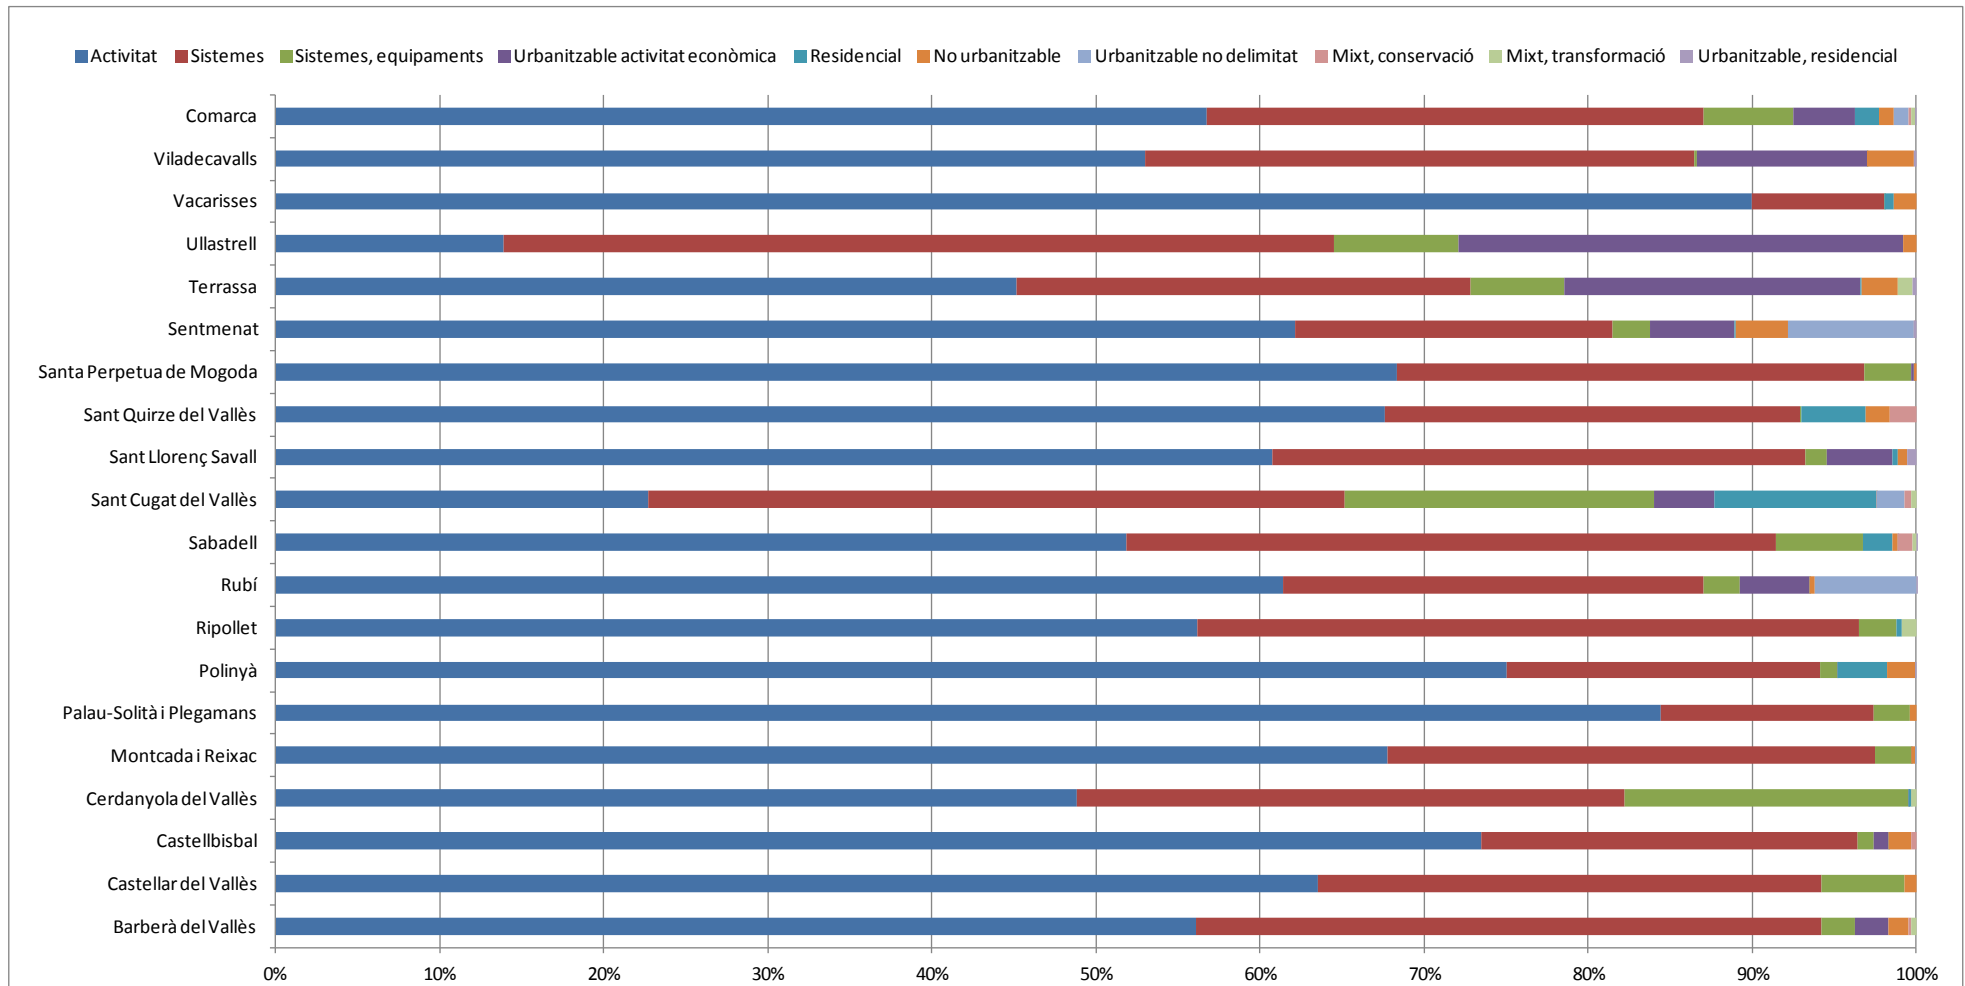

Les dades de la qualificació del sòl s'han extret del Mapa Urbanístic de Catalunya del Departament de Territori i Sostenibilitat. S'ha realitzat un treball d'estandarització de les qualificacions i agrupació en grans grups entre els diferents municipis de la comarca. També, a partir de fotointerpretació, alguns sòls s'han identificat com a sòl disponible malgrat el planejament encara l'identifiqui com a sòl per desenvolupar.
